About me...

Hey there!

My name is Seweryn. I've been pursuing photography for several years now, which results can be seen on social media and on my website. In 2026, I earned a degree in photography from the Krakow School of Art (KSA), which further motivated me to develop this passion, focusing mainly on wedding, engagement, and reception photo shoots.

I capture moments that many people don't even notice—the emotions during a wedding ceremony, the stress, and then the joy, the tears, and the laughter. All of this makes every event unique and one-of-a-kind. I focus on my work and always give it my all. I try to be unnoticed, discreet, and unobtrusive, and my goal is to provide you with the best possible results from my work :)
