ABOUT US

The musicians who accompany Giuseppe are an extraordinary mix of characters. Despite different views on the world and art, the band members find a common language in acoustic music. What they have in common is their musical education and experience. Not forgetting to have fun too. The band tries in its own way to discover the sounds of such classics of the world music scene as Sting, Zucchero, Frank Sinatra and Gipsy Kings. The diversity and individuality of the musicians were perfectly combined by a common denominator - Giuseppe Sestito.
